 Axion Polymers	Product Information Sheet		PP06 5001
Document Reference	MS05-PP06-5001	Issue Reference	1

Axpoly[®] Grade - PP06 5001

Description:- General Purpose Polypropylene

PP01 Series polypropylenes offer the designer and processor a high performance polymer with well-defined properties in a range of options to suit many applications.

The Axpoly[®] PP01 range of custom compounds are processed to a high purity and give consistent material properties during moulding.

Technical Data

Axpoly PP01 4001	
Parameter*	Typical Properties
MFI (5kg @ 200°C)	25 g/10 mins (200/5kg)
Density	0.97-1.01 g/cm ³
Tensile Strength	22 MPa
Impact	9 kJ/m ²
Visual Appearance	Black
Pellet Size	3 mm

Axpoly[®] is available in 1 tonne polyester big bags on a pallet, other formats possible on request.

Notes: All grades are assessed to ISO Standards, are ROHS compliant and REACH ready.
